

Create Below Page using CSS: Lab 06

Pumpkin image is in zip file. You will be using float property, pseudo class/element, attribute selector for links. Once the link has been visited make it black. When you hover your mouse on the link make it green.

You will use CSS to make the text bold.

Also, you will use shadow property to make The Halloween store have black shadow.

How to add images in GitHub: <https://www.linkedin.com/pulse/3-unique-methods-image-integration-github-readme-shafayetul-islam/>

Submit the lab using GitHub by the end of the lab day.
